

ENVIRONMENTAL DOCUMENTATION

**As required per Section 6003(a)(1)(S) of the Regulations the application will include:
Most recent version of publicly-available environmental documentation for the project**

A Final Environmental Impact Report was prepared, certified, and approved in December 2015 for the Stockdale Integrated Banking Project (Stockdale Project). For purposes of the Stockdale Project Final EIR, Rosedale is the Lead Agency and IRWD is the Responsible Agency. The Stockdale Project Final EIR includes program-level analysis of impacts in accordance with *CEQA Guidelines* Section 15168 of a third project site yet to be identified. The third project site accounted for in the Stockdale Project Final EIR is now designated to be Phase 1 of the Kern Fan Groundwater Storage Project (Kern Fan Project). Upon identification of the Phase 1 project site, subsequent project-level environmental review will be conducted. The Stockdale Project Final EIR will provide basis for anticipated project-level CEQA analysis for Phase 1 of the Kern Fan Project. For purposes of CEQA, Phase 2 of the Kern Fan Project is considered a fourth site in the vicinity of the Stockdale Project. Environmental review for the Kern Fan Project will therefore be completed as a Supplemental EIR (SEIR) to the Stockdale Project Final EIR. The SEIR will be completed such that the third site is specifically identified along with appurtenant conveyance facilities to be evaluated at a project-level and a fourth site added to be evaluated at a program-level. All environmental review for the Kern Fan Project will be completed prior to the implementation of Project facilities.

An estimated schedule to complete environmental review under a proposed Supplemental EIR and the estimated cost is included in the ESA scope of work attached as a separate file in **“Feasibility and Implementation Risk” Tab, Attachment 4.**

The Stockdale Project Final EIR can be found online at: http://www.irwd.com/images/pdf/doing-business/environmental-documents/env-documents-2015/NOD_Stockdale_EIR-web.pdf
